Of the legendary names in the history of the Ford Mustang, one stands apart: Boss. Originally created to homologate the new Boss 302 engine for SCCA Trans-Am racing, the Boss 302 Mustang was built in limited numbers for the street. Designed by legend Larry Shinoda, the Boss cars were easily distinguished from their less potent stable mates by their unique front and rear spoilers, rear window slats, and the omission of the standard Mustang's (fake) rear fender brake ducts. Also standard was a shaker hood scoop and bold graphics. Though Mustang performance faded to all-time lows as the 1970s rolled on, there was good news on the way. The pairing of the venerable 302 Windsor engine with the new Fox-body platform for the 1979 Mustang might not have seemed significant at the time, but it was the first edition of what would become a performance institution in the late 20th century: the 5-liter Mustang was an overwhelming force on the streets and tracks through the end of its production in 1995. With no small amount of fanfare, Ford is paying homage to its performance past with the re-introduction of the 5.0 liter powerplant in the Mustang GT for 2011.

A little later than the Mustang Dodge announced the Charger in the middle of the 1966 season with the top model having a 425bhp 426 Street Hemi motor. Chargers showed well at the NASCAR superspeedways and had a good performance on the street. The first generation, which featured the 440 Magnum engine, was replaced in 1968. Minor cosmetic changes kept the car fresh until reorganization in 1971 brought in a 115-inch wheelbase to minimize weight gain as emissions controls took their toll on power output. By 1974 the Hemi ceased to be an option when all engines were tuned for low-lead gasoline but the Charger remained until 1974 when the name was transferred to a personal luxury line. This is a book of contemporary road and comparison tests, model introductions, technical and specification data, racing, driver's impressions. Models covered include:

- 426 Hemi
- 440
- 500
- 440 Six-Pack
- 440 R/T
- Charger SE
