## Unorganized Religion: Pentecostalism and Secularization in Denmark, 1907-1924 Xulon Press

Sociologist Jeffrey Guhin spent a year and a half embedded in four high schools in the New York City area -- two of them Sunni Muslim and two Evangelical Christian. At first pass, these communities do not seem to have much in common. But under closer inspection Guhin finds several common threads: each school community holds to a conservative approach to gender and sexuality, a hostility towards the theory of evolution, and a deep suspicion of secularism. All possess a double-sided image of America, on the one hand as a place where their children can excel and prosper, and on the other hand as a land of temptations that could lead their children astray. He shows how these school communities use boundaries of politics, gender, and sexuality to distinguish themselves from the secular world, both in school and online. Guhin develops his study of boundaries in the book's first half to show how the school communities teach their children who they are not; the book's second half shows how the communities use "external authorities" to teach their children who they are. These "external authorities" -- such as Science, Scripture, and Prayer -- are experienced by community members as real powers with the ability to issue commands and coerce action. By offloading agency to these external authorities, leaders in these schools are able to maintain a commitment to religious freedom while simultaneously reproducing their moral commitments in their students. Drawing on extensive classroom observation, community participation, and 143 formal interviews with students, teachers, and staff, this book makes an original

contribution to sociology, religious studies, and education.

## **Asian and Pacific Cosmopolitans** Springer

This book shares the stories of four women - Florence Crawford, Mary Magdalena Lewis Tate, Aimee Semple McPherson, and Ida Robinson - who, despite their gender, pursued their freedom to preach and defend the Christian gospel. The author hopes clergywomen will find guidance and solutions in the stories of these courageous women.

## **Women in Pentecostal and Charismatic Ministry**

Zondervan Academic

"In my bibliographies there are no women in the evangelical tradition, and no Australian women scholars." This unique volume addresses this gap, with eighteen biblically rich and academically rigorous chapters by established and emerging Australian women scholars in the evangelical tradition. The authors consider our relationship with the land and Indigenous peoples, neighborhood, embodiment, (dis)ability, abortion, leadership, work, architecture, the media, Song of Songs and domestic violence, and Jeremiah and weaponized rape, and demonstrate recent methodologies such as a social identity reading of Exodus, sensory readings of Psalms and John's Gospel, and discipleship readings of Mary and Martha and the woman at the well. A contemporary Kriol psalm and stories of pioneering Australian women theological students and teachers complete the volume. Valuable for students and teachers across Bible, theology, ministry, and practice subjects, this book is an essential inclusion in any theological library. This book examines the complex and multifaceted nature of African Pentecostal engagements with genders and sexualities. In the last three decades, African Pentecostalism has emerged as one the most visible and profound aspects of religious change on the continent, and is a social force that straddles cultural, economic, and political spheres. Its conventional and selective literal interpretations of the Bible with respect to gender and sexualities are increasingly perceived as exhibiting a strong influence on many aspects of social and public institutions and their moral orientations. This collection features articles which examine sexualities and genders in African Pentecostalism using interdisciplinary methodological and theoretical approaches grounded within traditional African thought systems, with the goal of enabling a broader understanding of Pentecostalism and sexualities in Africa.

## Grounded in the Body, in Time and Place, in Scripture Cambridge University Press

This collection of fifteen sermons by one of the leading pentecostal theologians today provides insight into the form, style, and content of preaching in the pentecostal tradition while also being suggestive of normative homiletical theory and practice. The Kerygmatic Spirit argues that Spirit-empowered preaching is apostolic not only with regard to being rooted in the scriptural traditions but also with regard to connecting the that of the early Christian message with the this of contemporary experience and discipleship. Hence, rather than only reflecting pentecostal preaching of the sort that happens in the pulpits of churches connected to the modern movement by that name, these sermons are

presented as the participating in the form of gospel proclamation inspired and empowered by the divine Spirit poured out on all flesh on the Day of Pentecost by the risen Christ from the right hand of the Father. Whether read or heard (there are links to video and audio archives throughout), these homilies are illustrative of exegetical and expositional practice that connects the biblical text with Spirit-filled faithfulness in the twenty-first-century ecumenical church and world at large.

In *Pentecostal Hermeneutics in the Late Modern World*, L. William Oliverio, Jr. offers a series of forays into the places where late modernity and Pentecostalism have met in interpreting God, the world, and human selves and communities. Oliverio provides a historical, constructive, and ecumenical approach to understanding current trajectories in Pentecostal interpretation as he engages a variety of philosophers and theologians. Together, these essays point to a way forward for Pentecostal hermeneutics in the context of the late modern world.

*Pentecostals and Charismatics in Latin America and Latino Communities* BRILL

This book offers an historical and comparative profile of classical pentecostal movements in Brazil and the United States in view of their migratory beginnings and transnational expansion. Pentecostalism's inception in the early twentieth century, particularly in its global South permutations, was defined by its grassroots character. In contrast to the top-down, hierarchical structure typical of Western forms of Christianity, the emergence of Latin American Pentecostalism embodied stability from the bottom up among the common people. While the rise to prominence of the Assemblies of God in Brazil, the Western hemisphere's largest (non-Catholic) denomination, demanded structure akin to mainline contexts, classical pentecostals such as the Christian Congregation movement cling to their grassroots identity. Comparing the migratory and

missional flow of movements with similar European and US roots, this book considers the prospects for classical Brazilian pentecostals with an eye on the problems of church growth and polity, gender, politics, and ethnic identity. Paul J. Palma is a professor at Regent University and SUM Bible College and Theological Seminary. He is the author of *Italian American Pentecostalism and the Struggle for Religious Identity* (2020) and *Embracing Our Roots* (2021).

The growth of Spirit-empowered Christianity has been nothing short of phenomenal. From a handful of believers in the early twentieth century to a global movement today numbering over 600 million people in almost every culture and denomination, those who embrace the Holy Spirit and His gifts are now the fastest growing religious group in the world. This book is an authoritative collection from more than two dozen leaders in and scholars of the Spirit-empowered movement in Asia and Oceania. Focusing on the future of the movement, these world-renowned scholars

address the theological and cultural challenges of the new century and share emerging insights on how the next generation will face them.

*Limited Liberty* Springer

In little over a century, the Pentecostal movement has emerged from small bands of revival seekers to become one of the largest Christian groups in the world. Primarily a movement within Western Christianity for much of its brief history, it is increasingly characterized as a global movement. Pentecostal theology and ministry in a Western context must engage global Pentecostalism and be willing to rethink its traditional patterns of thought and practice in light of the evolving nature of the movement. The essays in this book come mainly from the McMaster Divinity College 2008 Pentecostal Forum: "The Many Faces of Pentecostalism: Pentecostalism and Globalization." The first section outlines the nature of globalization and establishes it as the context for contemporary Pentecostal theology and ministry. The other contributions explore the impact of globalization on traditional areas of Pentecostal theology, such as Spirit baptism and speaking in tongues, and twenty-first-century Pentecostal ministry.

*A Legacy of Preaching, Volume*

*Two--Enlightenment to the Present Day* explores the history and development of preaching through a biographical and theological examination of its most important preachers. Instead of teaching the history of preaching from the perspective of movements and eras, each contributor tells the story of a particular preacher in history, allowing these preachers from the past to come alive and instruct us through their lives, theologies, and methods of preaching. Each chapter introduces readers to a key figure in the history of preaching, followed by an analysis of the theological views that shaped their preaching, their methodology of sermon preparation and delivery, and an

appraisal of the significant contributions they have made to the history of preaching. This diverse collection of familiar and lesser-known individuals provides a detailed and fascinating look at what it has meant to communicate the gospel over the past two thousand years. By looking at how the gospel has been communicated over time and across different cultures, pastors, scholars, and homiletics students can enrich their own understanding and practice of preaching for application today. Volume Two covers the period from the Enlightenment to the present day and profiles thirty-one preachers including: Charles Simeon by Darrell Young Robert Murray M'Cheyne by Jordan Mark Stone Alexander Maclaren by R. In 1906, a new religious phenomenon emerged from California. Then, just over sixty years later, a million-fold expansion occurred. What was the catalyst for this explosion of growth? The *Pentecostal Paradox* explores the history and rise of a new religious movement called the Pentecostals. Drawing on eyewitness accounts, newspaper articles of the day, and other long-forgotten sources, author G. J. Hocking weaves together an accurate history of the movement to the present day. Filled with fascinating stories—the mailing lists of over 50,000 subscribers go missing; a preacher hijacked the pulpit causing untold havoc; a report of flames shooting fifty feet in the air—The *Pentecostal Paradox* asks: Were these events fact, fiction, or real phenomena? In this timely work, California the Charismatic Cradle features prominently as the author juxtaposes the rise of Pentecostalism with both the California gold rush and the San Francisco earthquake. Eventually, a "God Rush" occurred in 1906 as many rushed to Azusa Street, Los Angeles. How will this book shed light on this vast group? What next for Pentecostalism? These questions are answered in a candid and yet concise way in this much-needed analysis of the Pentecostal movement.

*A Legacy of Preaching, Volume Two---Enlightenment to the Present Day* McGill-Queen's Press - MQUP  
This interdisciplinary volume brings together leading writers and thinkers to provide a critique of a broad range of topics related to Hillsong Church. Hillsong is one of the most influential, visible, and (in some circles) controversial

religious organizations/movements of the past thirty years. Although it has received significant attention from both the academy and the popular press, the vast majority of the scholarship lacks the scope and nuance necessary to understand the complexity of the movement, or its implications for the social, cultural, political, spiritual, and religious milieus it inhabits. This volume begins to redress this by filling important gaps in knowledge as well as introducing different audiences to new perspectives. In doing so, it enriches our understanding of one of the most influential Christian organizations of the late 20th and early 21st centuries.
