--- You are responsible for what you tame  
---Yevhen. Forest ranger. Werewolf. Stifled by pack rules. Radek. Foxy ginger brat. Changeling. Will avoid responsibility at all cost. Banished from his pack for being gay, Yev has one last chance to redeem himself in the eyes of his family. He needs to stick to the rules for a year, and bury his sexuality forever. Shouldn't be so hard, since he can't have a relationship with a human without revealing his werewolf nature. That is until one night, a drunk ginger brat points a rifle in his face. Radek finished University months ago but thinking about the future is not on his agenda. Life would be great if he could just avoid any and all responsibilities. He doesn't want to be his mom's caregiver, doesn't want to take over the family fox farm, doesn't want to return to his village, and doesn't want a steady boyfriend. His world turns upside down when he's arrested by an infuriatingly attractive forest ranger. If that wasn't bad enough, he's now hunted by werewolves for discovering their drug smuggling operation, and... he turned into a fox!? Helpless and wounded, he seeks sanctuary with the very man who got him into this mess, but what's a fox to do? If there's someone who can help him understand his changeling origin, it's Yev. A werewolf. POSSIBLE SPOILERS: Genre: Paranormal M/M romance with dark elements Contains scorching hot, emotional, explicit scenes with a hint of kink and lots of biting! *Man the Hunted* argues that primates, including the earliest members of the human family, have evolved as the

prey of any number of predators, including wild cats and dogs, hyenas, snakes, crocodiles, and even birds. The authors' studies of predators on monkeys and apes are supplemented here with the observations of naturalists in the field and revealing interpretations of the fossil record. Eyewitness accounts of the 'man the hunted' drama being played out even now give vivid evidence of its prehistoric significance. This provocative view of human evolution suggests that countless adaptations that have allowed our species to survive (from larger brains to speech), stem from a considerably more vulnerable position on the food chain than we might like to imagine. The myth of early humans as fearless hunters dominating the earth obscures our origins as just one of many species that had to be cautious, depend on other group members, communicate danger, and come to terms with being merely one cog in the complex cycle of life.

Nowhere to run, nowhere to hide - an

electrifying, heartpounding, truly unputdownable thriller - a bestselling debut from talented newcomer, Gabriel Bergmoser. 'A truly terrifying, breathlessly exciting novel. It gut punches you in the first few pages and doesn't let you recover until the final, thrilling climax. An extraordinary book.' M W Craven 'An original and high-octane read, it makes Deliverance look like Picnic at Hanging Rock.' The Times/Sunday Times Crime Club Frank is a service station owner on a little-used highway who just wants a quiet life. His granddaughter has been sent to stay with him to fix her attitude, but they don't talk a lot. When a badly injured young woman arrives at Frank's service station with several cars in pursuit, Frank and a handful of unsuspecting customers are thrust into a life-or-death standoff. But who are this group of men and women who will go to any lengths for revenge? And what do they want? Other than no survivors ...? A ferociously fast-paced, filmic, visceral, tense and utterly electric novel, unlike anything you've read before. Set on a lonely, deserted highway, deep in the Australian badlands, *The Hunted* is white-knuckle suspense matched to the fast-paced adrenaline of a Jack Reacher novel and the creeping menace of *Wake in Fright*. This is unmissable reading. 'This slice of outback noir is .... at once exhilarating, gleefully vicious and totally, race-to-the-finish-line unputdownable' Observer 'An audacious walk on the wildest side of outback noir ... a vivid thriller.' Sydney Morning Herald 'A perfectly paced, thrilling read with an unrelenting sense of dread and menace ...building suspense at every turn of the page. Crime and thriller readers will love this savage Rottweiler of a novel that will clamp its jaws around their throat and shake them to the end.' Bookseller+Publisher 'Tough, violent, suspenseful and peopled with great characters, *The Hunted* could well be the Australian thriller of the year. This is Jack Reacher for adults.' Canberra Weekly

The wolf is an adept killer, able to take down prey much larger than itself. While adapted to hunt primarily hoofed animals, a wolf - or especially a pack of wolves - can kill individuals of just about any species. Combining behavioral data, thousands of hours of original field observations, research in the literature, a wealth of illustrations, and - in the e-book edition and online - video segments from cinematographer Robert K. Landis, the authors create a compelling and complex picture of these hunters.

**Never Cry Wolf** Open Road Media

Over a continent and three centuries, American livestock owners destroyed wolves to protect the beasts that supplied them with food, clothing, mobility, and wealth. The brutality of the campaign soon exceeded wolves' misdeeds. Wolves menaced property, not people, but storytellers often depicted the animals as ravenous threats to human safety. Subjects of nightmares and legends, wolves fell prey not only to Americans' thirst for land and resources but also to their deeper anxieties about the untamed frontier. Now Americans study and protect wolves and jail hunters who shoot them without authorization. Wolves have become the poster beasts of the great American wilderness, and the federal government has paid millions of dollars to reintroduce them to scenic habitats like Yellowstone National Park. Why did Americans hate wolves for centuries? And, given the ferocity of this loathing, why are Americans now so protective of the animals? In this ambitious history of wolves in America—and of the humans who have hated and then loved them—Jon Coleman

investigates a fraught relationship between two species and uncovers striking similarities, deadly differences, and, all too frequently, tragic misunderstanding.
