The national level of tourism planning is focused on several

elements like: • Defining tourism objectives; • Tourism policy;

• A physical structure plan including identification of major

tourist attractions, designation of tourism development regions,

international access points and the internal transportation

network of facilities and services;

### **Tourism planning and development (Introduction)**

National and Regional Tourism Planning was developed

with the assistance of WTO consultant Edward Inskip, a

California-based consultant who has wide experience in

planning, research and training, and has worked on

projects for the World Bank, the UNDP and the WTO.

National and regional tourism planning: methodologies and ...

The national level of tourism planning is concerned with:

tourism policy; infrastructure facilities and a physical structure

plan which includes important tourist attractions, selected

tourism development regions, international entry points,

facilities, and services.

### **Role of national government in travel & tourism**

• Tourism planning is the process of considering the

needs of people planning a trip and using those factors to

determine the best resources, programs and activities for

their trip. Tourism planning is intended for local residents

and businesses of the location, as well as tourists who

travel there.

*National and regional tourism planning: methodologies and ...*

Tourism planning is done on many different levels with the

categories comprising of international, national, regional and sub-

regional. Spanoudis (1982) proposes that planning should always

be a reflection of the development of the total available resources

without compromising the satisfaction of local conditions and

demands.
