Unlike old-school “design your own coupon book” titles, this book moves straight into computer technology and proceeds to the latest trend in couponing... apps, which provide deals to mobile users wherever they may be. Of particular interest are the sections describing how to make a splash in the highly lucrative, but also competitive daily deal segment of the market, where Groupon and LivingSocial reign supreme. Included within, readers will how to: •Build an online network of followers which can translate into customers •Attract merchants •Join affiliate coupon or daily deal programs •Find your niche market •Create an aggregator site, in which you present the best of the best from daily deal or coupon websites. •Market your coupon or daily deal site through the social media Of particular interest is a chapter devoted to working closely with your merchants to provide coaching and guidance on how the daily deal industry works from their perspective. Many daily deal businesses do not work to enhance the experience for their merchants. Readers, however, can learn how to do so. Experts in the industry are also included such as Marc Horne, co-creator of Daily Deal Builder, who discusses what it takes to build a daily deal site, David Teichner, CEO of Yowza!! who brought deal apps to iPhones and several business owners who have tried their luck at running daily deal. They discuss what they have learned from the process. Currently there are few, if any, other

books on how to start a daily deal business and the coupon books focus on how to use coupons and even on extreme couponing, but not on running an online coupon business. This is a unique title which provides those who enjoy offering deals and discounts to get started in an industry that is still growing. All Entrepreneur Step-By-Step Startup Guides Include: •Essential industry-specific startup steps with worksheets, calculators, checklists and more •Bestselling title, Start Your Own Business by Entrepreneur Media Inc., a guide to starting any business and surviving the first three years •Downloadable, customizable business letters, sales letters, and other sample documents •Entrepreneur's Small Business Legal Toolkit

In this much needed resource, Maryellen Weimer—one of the nation's most highly regarded authorities on effective college teaching—offers a comprehensive work on the topic of learner-centered teaching in the college and university classroom. As the author explains, learner-centered teaching focuses attention on what the student is learning, how the student is learning, the conditions under which the student is learning, whether the student is retaining and applying the learning, and how current learning positions the student for future learning. To help educators accomplish the goals of learner-centered teaching, this important book presents the meaning, practice, and ramifications of the learner-centered approach, and how this approach transforms the college classroom environment. Learner-Centered Teaching shows how to tie teaching and curriculum to the process and objectives of learning rather than to the content delivery alone.

INTERNATIONAL BESTSELLER • An engaging, deeply researched guide to flourishing in a world of increasing stress and negativity—the inspiration for one of the most popular TED Talks of all time “Powerful [and] charming . . . A book for just about anyone . . . The philosophies in this book are easily the best wire frames to build a happy and successful life.”—Medium Happiness is not the belief that we don't need to change; it is the realization that we can. Our most commonly held formula for success is broken. Conventional wisdom holds that once we succeed, we'll be happy; that once we get that great job, win that next promotion, lose those five pounds, happiness will follow. But the science reveals this formula to be backward: Happiness fuels success, not the other way around. Research shows that happy employees are more productive, more creative, and better problem solvers than their unhappy peers. And positive people are significantly healthier and less stressed and enjoy deeper social interaction than the less positive people around them. Drawing on original research—including one of the largest studies of happiness ever conducted—and work in boardrooms and classrooms across forty-two countries, Shawn Achor shows us

how to rewire our brains for positivity and optimism to reap the happiness advantage in our lives, our careers, and even our health. His strategies include: • The Tetris Effect: how to retrain our brains to spot patterns of possibility so we can see and seize opportunities all around us • Social Investment: how to earn the dividends of a strong social support network • The Ripple Effect: how to spread positive change within our teams, companies, and families By turns fascinating, hopeful, and timely, The Happiness Advantage reveals how small shifts in our mind-set and habits can produce big gains at work, at home, and elsewhere.

What is it about the top tech product companies such as Amazon, Apple, Google, Netflix and Tesla that enables their record of consistent innovation? Most people think it's because these companies are somehow able to find and attract a level of talent that makes this innovation possible. But the real advantage these companies have is not so much who they hire, but rather how they enable their people to work together to solve hard problems and create extraordinary products. As legendary Silicon Valley coach--and coach to the founders of several of today's leading tech companies--Bill Campbell said, "Leadership is about recognizing that there's a greatness in everyone, and your job is to create an environment where that greatness can emerge." The goal of EMPOWERED is to provide you, as a leader of product management, product design, or engineering, with everything you'll need to create just such an environment. As partners at The Silicon Valley Product Group, Marty Cagan and Chris Jones have long worked to reveal the best practices of the most consistently innovative companies in the world. A natural companion to the bestseller INSPIRED, EMPOWERED tackles head-on the reason why most companies fail to truly leverage the potential of their people to innovate: product leadership. The book covers: what it means to be an empowered product team, and how this is different from the "feature teams" used by most companies to build technology products recruiting and coaching the members of product teams, first to competence, and then to reach their potential creating an inspiring product vision along with an insights-driven product strategy translating that strategy into action by empowering teams with specific objectives—problems to solve—rather than features to build redefining the relationship of the product teams to the rest of the company detailing the changes necessary to effectively and successfully transform your organization to truly empowered product teams EMPOWERED puts decades of lessons learned from the best leaders of the top technology companies in your hand as a guide. It shows you how to become the leader your team and company needs to not only survive but thrive.
